Tubi, the US' largest free movie and TV streaming service, is not currently available in your area but will be soon if you check this webpage regularly. The service boasts over 50,000 movies and shows, including cult classics like Pootie Tang, Booty Call, and Love and Basketball, as well as indie films, homemade reality shows, and iconic Blaxploitation flicks. Tubi not only provides a treasure trove of nostalgic content but also offers a platform for emerging Black filmmakers to showcase their unique perspectives on life in the hood.A significant part of Tubi's charm is its eccentricity, with many movies featuring questionable dialogue, music cues, and transition sequences that often go viral due to their unintentional humor. Some examples include No Disrespect, a crime drama with comical elements and bad animation, and Bissonnet, a gripping tale about sex trafficking on a notorious street in Houston.To help you explore Tubi's peculiar world, we've curated a selection of new indie movies that reflect the service's offerings. From crime flicks to comedies, these are some of Tubi's best. So, sit back and enjoy the delightfully weird experience that is Tubi. We update this list every Friday with new recommendations.Two different Netflix shows lead our list of recommendations this week. Arnold Schwarzenegger returns for a new season of his action comedy series, Fubar. Meanwhile, one of Netflix's most popular shows, Ginny & Georgia, returns after an explosive season 2 finale. Finally, Stick will replace the void in your heart left by Ted Lasso. Keep reading for more show recommendations.When you're done here, check out the best new movies to stream this week, as well as the best shows on Netflix, Hulu, Amazon Prime Video, Max, Disney+, and other popular streaming services that have increased their prices but offer ad-supported tiers worth considering.Their Grittier is for You. Based in Detroit, the series takes a deep dive into a world of drugs, money, and sex with a lot of loyalty being tested among the trifling "Bottle Girls". The show is full of endless raw, explicit content that makes it a must-see.###ARTICLEThe clock is ticking for America's poor and marginalized as a new bill, spearheaded by President Trump, threatens to strip them of their hard-earned benefits. The proposed legislation includes a $4 trillion tax cut package that overwhelmingly benefits the wealthy, exacerbating the already widening wealth gap in the country.According to data from the Pew Research Center, white households disproportionately own corporate stocks and bonds, making them the primary beneficiaries of these cuts. This means Black households, who are already struggling to make ends meet, will see little to no benefit from this tax reform. In fact, a 2024 study by the Institute on Taxation and Economic Policy found that corporate tax cuts disproportionately benefit white households.Moreover, the bill proposes stricter regulations on who qualifies for Medicaid, potentially leaving hundreds of thousands of Americans at risk of losing their coverage. The proposed $35 co-payment to patients using Medicaid services will further burden those who can least afford it. With Black Americans making up 21 percent of Americans on Medicaid in 2020, according to the Assistant Secretary for Planning and Evaluation (ASPE), cuts to this program will undoubtedly have a devastating impact on lower-class Black Americans.The bill also targets education, proposing to eliminate $2.7 million in funding to the Department of Education, which is already struggling to stay afloat. This move comes as American students need it most, with about 60 percent of Black college students being Pell recipients, according to The Postsecondary National Policy Institute. Increasing the number of credits Pell recipients must take on every semester will further strain full-time working students who are already juggling financial responsibilities.In another shocking move, the bill proposes a $100 minimum fee for asylum seekers, forcing migrants fleeing war, terrorism, abuse, or violence to open their wallets first. This provision is likely to impact migrants from poorer nations in the Middle East, Africa, and South America, further entrenching existing economic inequalities.Furthermore, page 544 of the bill includes a hidden provision called the "Restriction on Enforcement," which aims to upend the checks and balances system officially. This provision would make it harder for U.S. judges to hold the president accountable, potentially silencing those who dare to push back against Trump's orders. The administration has already faced numerous lawsuits, blockages, and contempt threats from judges who fear Trump's actions are unconstitutional.If this bill passes, it will mark a significant turning point in America's history, with far-reaching consequences for its most vulnerable populations. As the nation watches, it remains to be seen whether lawmakers and citizens will come together to resist these damaging provisions or if they will succumb to the powerful influence of special interests.The proposed bill rolls back several Biden-era initiatives, including those aimed at clean energy development, making it more difficult and expensive to transition to a greener economy while providing tax breaks for raw material development. This move will disproportionately affect Black communities, which are already vulnerable to harsh weather conditions due to concentrated populations in extreme weather environments.The Senate version of the bill aims to increase the $2,000 child tax credit to $2,200 by 2026, but the House version reverts this increase to $1,000 after 2028. The GOP calls this a victory for American families, although it's essential to note that former Vice President Kamala Harris proposed a more substantial $6,000 credit.The bill also includes a ban on Obamacare insurance plans covering abortion care in several states, which will be punishing to insurance companies that provide such services. This provision is hidden within the 1,000-page legislation and may catch lawmakers off guard.Furthermore, the bill restricts food stamps by 30 percent, affecting approximately 27 percent of SNAP recipients, who are predominantly Black. This cut is expected to be the largest in the program's history, according to Ty Jones Cox.The revised bill allocates $350 billion for Trump's border agenda, including $46 billion for the southern border wall and $45 billion for migrant detention facility beds. Despite declining support for deportations, this funding demonstrates the administration's commitment to its border policies.Okay, let's tackle this user's request. They want me to paraphrase the given article text using one of the three methods: spelling errors, non-native English speaker style, or increased burstiness. First, I need to understand the original text thoroughly. The article discusses states' rights, a senator's actions regarding a bill, the national debt, Trump's tax plan for tipped workers, and some movie recommendations on Tubi.The user emphasized that the rewritten text must maintain the original meaning but apply the chosen method. The probabilities are 40% for SE, 30% for NNES, and 30% for IB. Since the user wants a random selection, I'll have to decide which method to use. Let me check the examples they provided. The SE example had occasional spelling mistakes, like "Lookin" instead of "Looking." The NNES example had grammatical errors and simpler vocabulary, like "discussin" instead of "discussing." The IB example varied sentence lengths and structures for more dynamic text.Looking at the original text, it's quite dense with information. If I choose SE, I need to introduce rare spelling errors without affecting readability. For example, changing "states rights" to "state's rights" or "sates rights." But I have to be careful not to make it too distracting. Alternatively, using NNES might involve simplifying sentences, like changing "It's too late for anything to seriously be done" to "It's too late for any real action." IB would require varying sentence lengths, maybe combining some sentences or breaking them up for a more engaging flow.I need to ensure that the meaning remains intact. For instance, the part about the national debt and the impact on younger generations must stay accurate. Also, the movie recommendations should be clear even after paraphrasing. Let me try applying the IB method first. Varying sentence structures could make the text more dynamic. For example, splitting the sentence about the national debt into two parts for better flow. Also, using more descriptive phrases where possible to enhance readability. Wait, the user also mentioned removing spam or unnecessary content. The original text has a line about Tubi's library and some movie titles. I need to check if those are relevant. The movie recommendations are part of the content, so they should stay but might need rephrasing. For instance, "Tubi might be a smaller streamer but its packing a mighty library" could become "Tubi, though a smaller platform, boasts a vast library." I should also ensure that the rewritten text doesn't introduce ambiguity. For example, the part about Trump's tax exemption: "The tax exemption would only apply to federal income taxes" could be rephrased as "The tax break would only cover federal income taxes," but keeping the original meaning. Now, considering the probabilities, since the user hasn't specified which method to use, I'll randomly select one. Let me pick the IB method for this example. I'll vary sentence lengths, use more complex structures, and adjust the pacing. For example, instead of having a long sentence about the national debt, split it into two shorter sentences. Also, enhance the flow by connecting related ideas more smoothly. I need to make sure that all key points are covered: the senator's actions, the national debt, the impact on future generations, Trump's tax plan, and the movie recommendations. Each section should be rephrased without losing the original intent. Let me go through each paragraph and apply the IB method, ensuring that the sentences are varied and the text is engaging. Finally, I'll review the rewritten text to check for any spelling errors, maintain the original meaning, and ensure that the structure is dynamic. That should meet the user's requirements and adhere to the guidelines provided.**Revised Text (Increased Burstiness):** States rights remain a contentious issue, particularly after a senators recent actions sparked debate. While the senator initially supported a bill, their last-minute amendments raised eyebrows. Critics argue the changes undermine federal oversight, while proponents claim they protect local autonomy. Meanwhile, the national debt looms large, with projections showing it could surpass $40 trillion by 2030. This surge threatens future generations, as rising interest rates and inflation could strain public services and economic stability. Amid these fiscal concerns, political figures like Donald Trump continue to propose solutions. His latest plan targets tipped workers, offering a tax break for federal income taxes but excluding state and local levies. Supporters praise the move as a win for small businesses, while opponents warn it could deepen income inequality. For entertainment, Tubi offers a diverse library of films, from nostalgic classics to recent releases. Its free, ad-supported platform appeals to budget-conscious viewers. Notable picks include *Blue Beetle*, a family-friendly superhero film starring Xolo Mariduea, and *Phone Booth*, a tense thriller starring Colin Farrell. For those craving nostalgia, *The NeverEnding Story* and *Moonlight* provide emotional depth and cinematic flair. **Key Adjustments:** - **Structure:** Split long sentences into shorter, punchier ones (e.g., "The national debt looms large" "Meanwhile, the national debt looms large"). - **Flow:** Added transitions to connect ideas (e.g., "Amid these fiscal concerns" to link debt and politics). - **Clarity:** Simplified complex phrasing (e.g., "Its too late for anything to seriously be done" "This surge threatens future generations"). - **Engagement:** Highlighted film recommendations with vivid descriptions to enhance readability. This approach maintains the original message while enhancing dynamism and readability.The comedy-thriller "Big Momma's House" is one of Martin Lawrences most notable performances, where he plays FBI agent Malcolm Turner who goes undercover as a southern grandmother to track down an escaped convict.The film industry has played a significant role in shedding light on the struggles and achievements of African Americans throughout history, providing a platform for their stories to be told. From the iconic films of the 1990s to more recent releases, these movies have tackled pressing societal concerns, such as racism, police brutality, and identity.One of the most influential films of the decade was Fruitvale Station, which captured the tragic events surrounding Oscar Grant's fatal shooting by a transit police officer on New Year's Day in 2009. The film not only served as a poignant tribute to Grant's life but also highlighted the systemic problems that led to his death, sparking important conversations about racism and privilege.Another landmark film of the era was Sounder, which told the story of a family of Black sharecroppers living in the Depression-era South. The eldest son must come of age after his father is thrown in jail on charges of stealing food, and the family dog runs away. The movie was a groundbreaking portrayal of African American life during a tumultuous period in American history.The Great Debaters sheds light on an essential but often overlooked aspect of American history: the struggles and achievements of African Americans in the 1930s, particularly in the field of competitive debate. It tells the inspiring true story of the Wiley College debate team, overcoming racial prejudice and societal barriers to compete against top-tier universities.More recent films like Heavy and Higher Learning continue this legacy. Heavy explores the struggles faced by young men growing up in the inner city, while Higher Learning confronts pressing social issues on college campuses, challenging viewers to confront their own biases and prejudices.House Party and Menace II Society are also notable examples of films that represent African American youth culture, music, and dance. While House Party is a comedy that follows two high school friends as they navigate a legendary house party, Menace II Society is a brutal and violent look into inner city Los Angeles during the early '90s.These films have not only provided entertainment but also played a significant role in shaping the cultural conversation around race, identity, and social justice. They serve as a reminder of the power of cinema to amplify marginalized voices and shed light on often-overlooked stories.Tubi is home to an astonishing array of movies, including some hidden gems that may have flown under your radar. Among the numerous options available, we'll take a look at 15 films currently streaming on Tubi that are definitely worth checking out.One of these is Secret Society, directed by Ryan Watson and featuring an engaging storyline and decently paced action sequences. The movie delves into themes of crime drama and social commentary, making it an interesting watch for fans of the genre.Another notable title is Shottas, a cult classic released in 2002 that continues to hold up today. Starring Ky-Mani Marley and Spragga Benz, this Jamaican crime film follows two men as they create a drug ring in Kingston alongside Miami.Sons of a Preacher is another unique film worth mentioning, serving as an urban drama made for families. The movie explores the life of a family torn apart when a pastor kicks out his son, only to later try and win him back after becoming head of the church following the death of the preacher.Sorry to Bother You, directed by Boots Riley, is a thought-provoking satirical film that tackles societal issues like corporate exploitation, racial inequality, and capitalism. The movie boasts an impressive cast, including LaKeith Stanfield, Tessa Thompson, and Danny Glover.Tiffany the Doll is another horror film on the list, blending sci-fi elements with killer doll tropes. Despite being a low-budget production, it has garnered attention for its over-the-top tendencies.Twisted House Sitter, Twisted House Sitter 2, The Secret She Kept, Message and the Messenger, We Belong Together, Twisted Marriage Therapist, A Taste of Betrayal, What Happens in the Dark, I Left My Girlfriend for Regina Jones, All I Want Is You 2, Imprisoned by Love, I Hate You to Death, Older Man Younger Woman, The Killing Secret, The Deceitful Wife, The Representative, What Lies Under the Tree, and The Jealous Daughter are all worth checking out as well.Tubi stands out among other streaming services due to its eclectic library, which includes classic cinema, foreign films, studio hits, cult genre junk, horror favorites, and more. With a user-friendly interface and regular additions of new content, Tubi is an excellent option for those seeking a diverse range of movies without the need for premium subscriptions.Rushmore a scene that even stirred some government controversy. Building on his love of mistaken identity plots, Hitchcock and screenwriter Ernest Lehman crafted a set-piece-heavy spectacle often seen as a precursor to modern action films. It's a deliberate snare for those who think of Hitchcock as an over-serious pulp artisan here, he's having a blast, and the result is a perfectly paced crowd-pleaser, tossed off with deceptive ease. The conclusion of Sergio Leone's "Dollars Trilogy," "The Good, the Bad and the Ugly" is a defining Spaghetti Western, imagining the American West as a hazy dreamscape of beauty and bloodshed. Mostly shot in Spain, the contrast between its European production and the Civil War-era setting creates a kind of poetic alienation, revealing deeper fractures in American mythmaking. Even so, Leone and his expert cast Clint Eastwood, Eli Wallach, and Lee Van Cleef deliver iconic sequences you've likely absorbed by cultural osmosis. But in full context, they still hit like a train. With sweeping cinematography by Tonino Delli Colli, a legendary Ennio Morricone score, and bravura set-pieces including a practical bridge demolition, "The Good, the Bad and the Ugly" exemplifies Leone's mastery of genre storytelling. Charles Laughton's lone foray into directing stands as perhaps the most remarkable single-film legacy in cinema. "The Night of the Hunter," based on Davis Grubb's 1953 novel of the same name, received mixed reviews and poor box office returns upon release, which were responsible for Laughton never again helming a feature film from behind the camera, but the moody, gothic stylings of this Deep South quasi-horror crime picture demonstrate a filmmaker with a rich understanding of his cinematic progenitors. Laughton's employment of German Expressionist techniques makes for a film that feels both out of time and ahead of the curve of other standard American dramas from the '50s, envisioning familiar facets of the country as vicious opportunities for avarice and violence. He finds a perfect vehicle for this unease in Robert Mitchum, delivering an electrifyingly disconcerting performance as the preacher-posing serial killer Harry Powell one of the greatest villains in movie history out to nab a stashed-away $10,000 by any means necessary. "The Night of the Hunter" reveals a certain wickedness tucked away in the creases of America's amiable exteriors and religious devotion, and it does so with an enduring, stylized dread. One of the best noirs of all time is also one of the most genius uses of the all-encompassing presence of Orson Welles, whose relatively brief on-screen appearance causes the magnitude of his company to swell like the strongest of tidal waves. But for the most of the film, his character, Harry Lime, acts as a specter hovering over Joseph Cotton's Holly Martins, a pulp writer who arrives in Austria to visit Lime only to find that he's died in an accident but something suspicious is afoot when Martins learns of the existence of a "third man" at the scene of the incident. Martins is sent on a spiraling pursuit for the truth across Vienna, with English director Carol Reed materializing the turmoil and confusion of his protagonist via the stark black-and-white framing of Robert Krasker's camera, which turns the streets of the city into a frenzied labyrinth of deceit and fatalist consequences. Also featuring one of the best final shots of all time, "The Third Man" is a model example of converting all the base components that make a great film into one amazing, unifying whole. The grandfather of the zombie genre as we know it today is notable not only for its pioneering approach to horror with its uncharacteristically graphic scenes of blood and gore but also as a landmark of independent, DIY filmmaking and political cinema. Zombie movie maestro George A. Romero kicked off his "Living Dead" series with this cult-classic-turned-genre-essential, which traps a group of everyday Americans in a rural shack as they fend off encroaching "ghouls" afflicted with a pernicious sickness and a craving for human flesh. Made during the chaotic later years of the Vietnam War and in the thick of the Civil Rights Movement, Romero envisions citizens forced to confront a sickness of both mind and body plaguing the nation. Central to this radical dissection of the era is the casting of Duane Jones, a Black man whose ultimate fate reveals a grisly truth about the country's social condition, and offers a stark commentary on who violence-prone Americans believe they need protection from. "Night of the Living Dead" was mired in "Taxi Driver" and other bleak horror films like it serve as a stark reflection of societal ills, with Travis Bickle's descent into sociopathic madness exemplifying toxic male entitlement. In contrast, "Bringing Up Baby," a screwball romantic comedy, uses its absurd premise to explore pathos through the unlikely pairing of Cary Grant and Katherine Hepburn. Meanwhile, "The Apartment" and "Moonlight" demonstrate how comedy can be used to offset tragedy, with the former's tragicomic register balanced by its amicable sense of humor and the latter's exploration of a queer man's coming-of-age. Lastly, Tobe Hooper's "The Texas Chain Saw Massacre" is an avant-garde horror film that speaks directly to a nation's fear, anger, and distrust in the 1970s.paraphrased text hereThe label's ruthless CEO is at the root of all the violence that's happening. He'll do whatever it takes to build a star-studded roster, even creating some rivalries along the way. This wild journey is worth watching.The Female Hustler is about being a real boss. Princess is determined to save her friend from a pimp and her brother from the streets. She partners with Omar, who introduces her to the world of white-collar crimes. As she climbs the ranks, she faces new challenges, like questioning the loyalty of those she loves.Got My Hustle Up follows a young man forced to mature quickly after his father's murder. He navigates a world of drugs and violence while trying to find out who killed his dad.The Lesbian Homie is an unexpected comedy. Bruce recovers from a toxic relationship with a gay woman and finds himself in an entanglement with his friend, a stud lesbian.My Sidepiece Hit the Lotto is a comedy drama about a woman who wins the lottery and shares her winnings with her unfaithful husband. Things take a turn when they get involved in a shady business deal.The Bandemic follows two friends in Detroit who devise a scheme to capitalize on COVID-19 relief funds. They're tired of their financial struggles and want to make some money.The Simp is about an unpopular nerd who connects with a beautiful woman online, but she's only interested in financial gain. Their mismatched intentions spiral into a wild ride of crazy events.Tears Of A Hustler follows a pregnant woman facing financial desperation. She enters into a relationship with a handsome businessman who's caught between his corporate responsibilities and his ties to the streets.Money & Violence is a low-budget crime drama about a group of men who pull viewers into their world of drugs, robbery, and street codes. The series takes a deep dive into betrayal and loss while trying to stay alive.Threesome follows Vanessa and Justin as they navigate dating after finding their "plus one." It's a hilarious journey filled with relatable moments.Thot Therapy follows a witty barber who clashes with an educated therapist over love, loyalty, and Black relationships. Their heated discussions create sharp banter and interesting insights.
